# THE CHOICE OF CHAMPIONS

When we invented KICKR, we weren't looking to start a revolution. We were just looking for a way to make indoor cycling suck less. But once word spread that you could control your trainer with your laptop or smart phone, a revolution ignited. A revolution we've led ever since by creating products designed to make indoor training more immersive, more challenging and—dare we say it—more fun.

# KICKR BIKE

smart bike

## KICKR RIDE FEEL

KICKR BIKE combines KICKR's legendary resistance and grade simulation technologies to replicate the sensation of riding outdoors – including downhill simulation that allows you to maintain speed on virtual descents.

## TRUE FIT

Guided by an intuitive setup app, Wahoo has made it simple to match KICKR BIKE's fit to your outdoor bike's exact geometry. Dial in your fit with easy access quick release levers - even customize with your own components for optimal comfort and performance.

## RIDE READY

Once set up, the KICKR BIKE is ready to roll. It requires no calibration, seamlessly integrates into the Wahoo product ecosystem and easily pairs to your ELEMNT GPS Bike Computer, smartphone, tablet or PC, so you can go from zero to ride immediately.

## REALITY SHIFT

Virtual shifting and custom gears allow you to match the gear ratios of your outdoor bike, including number of speeds and even cassette tooth count, and replicates most major manufacturer group sets to create the most personalized ride experience.

## THE ULTIMATE INDOOR TRAINING EXPERIENCE

The ultimate in power, accuracy and responsiveness tuned for the most demanding cyclists.

### VIRTUALLY SILENT OPERATION

The KICKR's design offers an ultra quiet riding experience, unmatched by other indoor trainers.

### REALISTIC RIDE FEEL

Large heavyweight flywheel uses algorithms to control the responsive resistance to best replicate the sensation of riding on the road.

### SERIOUS POWER

With over 2,200 watts of resistance and an incredibly stable design, KICKR is built to withstand the toughest training sessions.

### CONNECTIVITY

# KICKR CLIMB

indoor trainer grade simulator

## ELEVATE YOUR RIDE

KICKR CLIMB takes KICKR indoor riding to the next level by adding physical grade changes to your ride, preparing you to take on the toughest challenges and tallest mountains. The world isn't flat; now, neither is your ride!

- Matches ascents up to 20% and descents of -10%
- Physically adjusts your position on the bike to engage climbing muscles
- Connects to the most popular online training platforms

### APPS

# KICKR HEADWIND

smart fan

## CONTROL YOUR CLIMATE

The KICKR HEADWIND is the first ever smart fan, designed with the cyclist in mind. It pairs directly with Wahoo trainers, ANT+ speed sensors or heart rate monitors to automatically adjust fan speed based on your efforts.

- Targeted Airflow Pattern is designed to mirror the shape and position of a cyclist's body.

**MAX FAN SPEED**  
30 mph/48 kph

### CONNECTIVITY

Bluetooth

### APPS

# KICKRMAT

Water resistant and anti-slip to keep the trainer in place no matter how much you sweat. Plus, the thickness and material make it noise insulating.
